The **CP Color Wheel** shows where each CP ink best fits in the classic spectrum and is a useful tool for creating easy color combos.

Neutrals don't fall within the classic spectrum and are not typically included on the color wheel.

To put it together, simply cut out these circles, line it up with the circle on the Color Wheel, punch a hole in the center and connect with a brad.

More information about using the CP Color Wheel, watch our CP Color Wheel 101 Videos: www.catherinepooler.com/cwplaylist
